## COURSE DESCRIPTION

Introductions to International Relations Science is a basic course for students of International Relations. It opens the first door to knowing international relations for first semester students. Basically, this course will guide students to answer six important questions in IR study:

1. Why is it important to learn IR?
2. What is the essence and scope of IR?
3. How is the development of IR?
4. Who are the Actors in IR?
5. What are important issues in IR?
6. What kind of processes exist in international relations?
